**GARMENT**  
Denim & Knit & Woven

## ABOUT COMPANY

Established in 1987, Alan Moda has specialized in manufacturing and exporting jackets and outdoor gear. In 2007, the company expanded its product line to include denim. A year ago, it further diversified by adding a knitting group, offering knitted collections and production services. Alan Moda boasts in-house production with versatile cell production lines capable of handling denim, non-denim, soft woven, and knitted jersey products. The company emphasizes hand craftsmanship and specialized workmanship in its services. Notably, Alan Moda excels in executing various processes like washing, printing, embroidery, and handwork on products with precision and quality. The company prides itself on its adaptability and commitment to innovation, believing there's no product beyond its manufacturing capabilities.
