ABOUT COMPANY

Our 360-degree service offering is easily adapted to suit different customer needs. Our services include trend tracking - analysis, Sourcing, Design, Product development, Production & Production Monitoring, Quality Assurance, Export and Documentation. One of Our strong parts is sourcing and doing high-quality sustainable production for brands, from Denmark, The Netherlands, Finland, Belgium; Sweden..etc who care about the importance of sustainable materials and quality workmanship. And we can import fabric from Italy or any other country. We do not have an MOQ problem as long as we do not have a fabric minimum issue.
